VALVTECT

FUEL TECHNOLOGY BEYOND GASOLINE & DIESEL

YOUR PROPANE.
A COMPETITIVE ADVANTAGE.

Introducing CGX-4® Premium LPG/Propane Additive with CH25X® Technology.

SET YOUR FUEL APART.

You know ValvTect for premium gasoline and diesel treatments. Now bring that same focus on fuel performance to your propane business.

CGX-4 helps distributors create a differentiated premium propane offering for engine applications.

REDUCE MAINTENANCE
Helps remove and prevent heavy-end deposits.

IMPROVE PERFORMANCE
Promotes combustion efficiency and improved fuel economy.

PROTECT EQUIPMENT
Provides lubrication and helps prevent corrosion.

REDUCE EMISSIONS
Helps reduce carbon monoxide and hydrocarbon emissions with continued use.

TREATMENT AT SCALE

110,000 GALLONS
One 55-gallon drum treats approximately 110,000 gallons of propane.

1:2,000
Recommended treatment ratio.

DON'T JUST SELL PROPANE.
SELL PREMIUM PROPANE.

For approved LPG engine applications only. Use according to current product instructions

VALVTECT

FUEL TECHNOLOGY BEYOND GASOLINE & DIESEL

LET'S TALK ABOUT YOUR PROPANE BUSINESS

Your next premium fuel opportunity starts with a conversation.

WHAT COULD CGX-4 DO FOR YOUR BUSINESS?

Whether you already distribute ValvTect or are exploring a new partnership, let's talk about where CGX-4 could fit into your propane business.

LET'S DISCUSS:

- How CGX-4 works and where it can be used.
- Opportunities to differentiate your propane.
- Treatment rates, volumes and program economics.
- How ValvTect can support your business.

READY TO SET YOUR PROPANE APART?
