

All diesel and biodiesel fuels are susceptible to microorganism growth. This growth will produce cloudy, slimy, contaminated fuel that can shut down your equipment, corrode tanks and damage critical engine parts. ValvTect®'s BioGuard® products eliminate this threat, ensuring your diesel fuel is ready when you are.

# BIOGUARD vs. BIOGUARD PLUS 6

	BIOGUARD	BIOGUARD PLUS 6
	<b>CORRECTIVE</b>	<b>CORRECTIVE + PREVENTATIVE</b>
Kills and prevents bacteria and harmful microorganisms	✓	✓
Works in all types of diesel fuel	✓	✓
Kills growth in as little as 2-3 hours	✓	✓
Reduces maintenance costs and down time	✓	✓
Advanced detergent package cleans valves and injectors		✓
Contains cetane booster to improve power and cold starts		✓
Prevents phase separation		✓
Prevents rust and corrosion		✓
Improves lubricity, reduces friction, and increases efficiency		✓
Stabilizes fuel for up to 2 years		✓
